Planning and Zoning Director
The City of Coral Gables

Re: Gables Harbour Condominium Apartments Association, Inc. – Zoning
Property: 6901 Edgewater Drive, Coral Gables, Florida
File No.: 14L-205

Dear Mr. Trias:

My office is representing Gables Harbour Condominium Apartments Association, Inc., in its quest to formalize the existing dock facilities located at 6901 Edgewater Drive, Coral Gables, FL.

The 4 story condominium building and 26 boat slips were built in 1970-1971 by Steve Hessen, President of Gables Harbour, Inc., with City Commission approval evidenced by Resolution 15008. Our application package contains copies of documentation from 1969 (newspaper articles, Resolution 15008 and building permits from 1969 and 1921) evidencing the approval and the presence of the dock facilities.

The City of Coral Gables does not have a permit on file for the dock facility but does have copies of old permits for certain portions of the dock. The County also does not have a permit on record for the facilities.

The dock and finger piers are in dire need of repair. A Class I permit from Miami-Dade is required in order for owners of the boat slips and docks to perform repairs. The Class I permit from the County requires City approval.

Mr. Ramon Trias
January 21, 2014
Page 2

After numerous meetings with the Planning & Zoning Director, Ramon Trias; Assistant Development Services Director, Charles Wu; City Attorney, Craig E. Leen and special counsel to the City, Elizabeth Hernandez, it was collectively determined that a site specific text amendment would be most efficient route to formalize the existence of the dock facility and allow for much needed repairs.

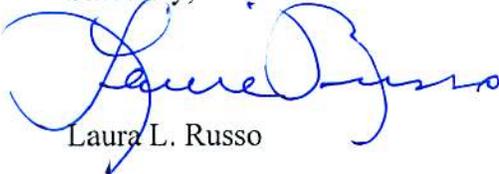

The Gables Harbour Condominium Apartments Association proposes the attached site specific text amendment that was drafted in conjunction with the City Attorney and Special counsel to the City. The proposed text amendment outlines the approval for the existing docks and limits the number of slips to the existing 23 and the maximum length of finger piers to what currently exists. The application package includes:

- a. Planning Division Application
- b. Lobbyist Annual Registration and Issue forms
- c. Application Representation and contact information
- d. Aerial
- e. Photographs and Marina Finger pier inspection
- f. Plan of survey and finger pier plan
- g. Copies of building permits applications 20837B from 1969 and 19806A from 1971
- h. Copy of newspaper articles from 1969 and Resolution 15008 and minutes of Planning and Zoning board hearing from July 21, 1969
- i. Zoning Code Text Amendment and Justification

We are providing 16 copies of the application packages and 2 discs containing the submittal information along with 2 sets of the mailing list for property owners within 1,000 feet.

Should you have any questions or need anything further, please do not hesitate to call me.

Sincerely,

Laura L. Russo

Reference: Inspection Report for the Finger Pier Structures at the Gables Harbor Condominiums.

Attention: Mr. Jorge Guanchez
Project Manager

This report describes the general observed condition of the wood finger pier structure at the Gables Harbor Condominium; and will also address any visible deficiencies of the finger piers. The report will also address the possible causes for the observed deficiencies and will provide recommendations for their repair. This investigation has been performed by means of visual observation. The derived conclusions are to the best of my knowledge, belief and professional judgment.

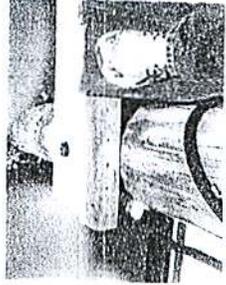

OBSERVATIONS:

As per initial observation, the general impression of the condition of the finger piers is one of weathered deterioration. The wood structures were observed to exhibit general warping and splitting due to prolonged exposure.

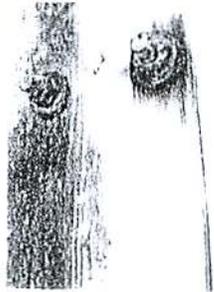

The finger pier structures were observed to be typically 18" wide, consisting of two 3x8 wood beams supported directly on the concrete deck and wood piles at their end. Connections to the wood piles typically consisted of thru bolts, and no connections were observed at the concrete deck end. The majority of the bolt connections were observed to exhibit some level of corrosion, from moderate to severe corrosion. Also the majority of the connection exhibited splitting of the wood beam. At one finger pier, the end connection had completely failed due to the rotting of the wood beam. At several piers, wood scabs were added to the continuous 3x8 beams in an attempt to strengthen the deteriorated wood beams.

Several of the end supporting wood piles were observed to be loose, causing the instability of the finger pier attached to the pile. One of the end supporting piles was observed to be severely rotted within the splash zone.

In my opinion, the design of the finger piers is structurally insufficient and the observed condition of the finger piers does warrant a structural concern and renders most of the finger piers as unsafe. It is my recommendation to remove the existing finger pier structures and to replace them with a properly designed finger pier structure.

Present at the meeting at this time was Mr. Steve Hession, Director, on behalf of Item 3618-7, which was approved by the Planning and Zoning Board at its meeting of July 21, 1969 for construction of a thirty-unit apartment building located on Lots 1, 2 and 3, Block 2, "Sunrise Harbour", the east side of Edgewater Drive to the South and of the cul-de-sac. Present as opponent of the application was Dr. James R. Jude, representing the Sunrise Harbour Association. After discussion and concession on the part of Mr. Hession to delete four boat slips, the following resolution was presented:

RESOLUTION NO. 15068

A RESOLUTION AUTHORIZING AN EXCEPTION TO ORDINANCE NO. 1525, AS AMENDED, AND KNOWN AS THE "ZONING CODE".

BE IT RESOLVED BY THE COMMISSION OF THE CITY OF CORAL GABLES:

That the following exception to the provisions of Ordinance No. 1525, as amended, and known as the "Zoning Code", having been recommended by the Planning and Zoning Board at its meeting of July 21, 1969, be and the same hereby is approved, to-wit:

(3618-7)

In connection with the construction of a 30-unit apartment building consisting of one floor of parking, plus three (3) additional stories, permit the following exceptions:

- (a) That offstreet parking to be located under the building and between the building and the street instead of being only located between the building and the street as required by the Zoning Code as follows:
 - (1) That offstreet parking shall be located between the building and the street.
 - (2) That, in order to screen the parking area from the street, a four-foot (4') high wall shall be constructed with a five foot (5') strip between the wall and street property line; said strip shall be properly landscaped and so maintained. In the case of a corner lot a four-foot (4') high wall shall be constructed on the side street having the same requirements for setback and landscaping as is required along the front property line.
 - (3) That a twenty-two foot (22') entrance driveway to the parking area shall be located in the center of the lot and parking spaces shall be so located that cars will park parallel to the wall and perpendicular to the side property line.

APPLICANT'S PROPOSAL: In connection with the construction
of a 10 unit apartment building consisting of one floor of
parking plus three (3) additional stories, the applicant
requests the following exceptions:

1. Permit the off-street parking to be located
under the building and between the building
and the street instead of being only located
between the building and the street as re-
quired by the zoning Code as follows:
 - (a) That offstreet parking shall be located
between the building and the street.
 - (b) That, in order to screen the parking area
from the street, a four foot (4') high wall
shall be constructed with a five feet (5')
strip between the wall and street property
line; said strip shall be properly land-
scaped and so maintained. In the case of
a corner lot a four foot (4') high wall shall
be constructed on the side street having the
same requirements for setback and landscaping
as is required along the front property line.
 - (c) That a twenty-two foot (22') entrance drive-
way to the parking area shall be located in
the center of the lot and parking spaces shall
be so located that cars will park parallel to
the wall and perpendicular to the side property
line.
 - (d) That the parking area shall be paved thirty-
five feet (35') on each side of the driveway
in order to screen cars from view by the wall.
2. Permit the ground cover of the principal building
to be 29.31% of the total site area instead of 28%
as permitted by the zoning Code (14,589.5 sq. ft.
instead of 13,657.5 sq. ft.)
3. Permit the combined lot coverage of the principal
building and all auxiliary structures (swimming
pool and boat slip) to be 41.75% of the site area
instead of 34% as permitted by the zoning Code
(20,365.5 sq. ft. instead of 16,584.18 sq. ft.)

FINDINGS: The Planning and Zoning Board finds:

1. Steve Hesse, owner and Robert Finsley, architect,
appeared before the Board to present the proposal
and presented plans which had been approved by the
Board of Architects for architectural design.

2. Mrs. Hesson stated that he is requesting the Planning and Zoning Board to review the new driveway which he has submitted as the City Fathers have recommended that he do so.
3. Mr. Hesson stated that the proposed is for a low-rise apartment as suggested by the City Commission and that he is willing to scrap the nine story high-rise building that he had as he told the City Commission at their last meeting.
4. Mr. Hesson stated that he had quite a bit of money invested in plans and etc. but since the City Commission and residents were against the high-rise he will construct a low-rise.
5. Mr. Hesson stated that Mr. Knight, Executive Vice-President of Citizens League attended the City Commission and that he recommended this and it is on record and that he thanked Mr. Hesson for making the compromise.
6. Mr. Hesson stated that he required three small variances on the proposed low-rise. Two of which he would not require if it were not a high-rise site.
7. Upon a question from the Board, Mr. Hesson stated that the City Commission had stated to him that it would not take action on a high-rise after he presented his plans.
8. Upon a question from the Board, Mr. Hesson stated that they proposed parking for 47 cars and that the cars parked outside the proposed building will be screened from view.
9. Upon a question from the Board, Mr. Tinsley stated that the request is nothing unusual as a building down the street from subject property has outdoor-ground parking.
10. Mr. Tinsley stated that the proposed boat slips are taking up a lot of lot coverage.
11. Dr. William Silver (Lot 2, Block 3, S.M.S. School Addition No. 1) appeared before the Board in connection with this item.
12. Dr. Silver expressed concern about having three times the number of boats there in the provisions provided for pollution control as subject property is in the waterway in a dead-end finger and as there is a great deal of sewage which can be generated by that number of boats.
13. Robert Knight, Executive Vice-President of the Citizens League, appeared before the Board in connection with this matter.

14. Mr. Knight stated that the members of the Citizens League and some residents of the Sunrise Harbour he had talked with feel that the proposed is much better than the proposed nine story building.
15. Mr. Knight expressed concern over adequate parking and the proposed 30 boat slips and the possible pollution they would cause.
16. Arthur Brown (lots 24 and 25, Block "B", Sunrise Point) appeared before the Board in connection with this item and expressed concern over the proposed boat slips being used for commercial purposes. The Board pointed out that this would not be allowed.
17. Sally Jude (200 Edgewater Drive) appeared before the Board in connection with this item and expressed concern over the increase in ground coverage being requested.
18. Paul Kaplan (61 Edgewater Drive) appeared before the Board in connection with this item and stated that he appreciated the proposed was going to be a low-rise instead of a high-rise but was concerned about the percentages of the ground coverage being asked.
19. Mr. Hessen, in rebuttal, stated that they propose 30 under cover parking spaces and 17 on site parking spaces.
20. Mr. Hessen stated that there will be no commercial use of the proposed boat slips and that each boat slip was sold with the apartment.
21. Upon a question from the Board, H. Hesser stated that they will need all requirements of the City of Coral Gables in regards to the landscaping and walls.
22. Mr. Hessen stated that he is allowed a 5' dock away from the bulkhead and that a 9', 10' or 11' beam boat would sit out 1' which would make it 17' out and that none of the boats will project out over 12'.
23. Upon a question from the Board, Mr. Tinsley stated that the towers shown on the plans are Penthouses which are allowed as there are less than 25% of the floor below.
24. Mr. Hessen stated that they are ready to go immediately either on the high-rise or low-rise building.

The Planning and Zoning Board requested that Mr. Vinsant give the recommendation of the Planning and Zoning Department and Mr. Vinsant recommended that the applicant's request be approved.

ACTION BY THE PLANNING AND ZONING BOARD: The Planning and Zoning Board recommended that an exception be granted to permit the applicant's request.

PLANNING AND ZONING BOARD MEMBERS CONCURRING:

Mr. Whyte; Mr. Gray; Mr. Junkin and Mr. McTague.

The Planning and Zoning Board in recommending that the applicant's request be approved stated that it felt a low-rise building would be better for Sunrise Harbour than a high-rise building would be.

Zoning Code Text Amendment Justification

The applicant is proposing a site specific text amendment addressing the existing dock facilities at Gables Harbour Condominium Apartments. The text amendment addresses the total number of slips, number and maximum length of the finger piers, as well as the orientation of the boat slips. The text amendment references a plan of survey of the facility that is a part of the application documentation and will be on record in the Planning and Zoning Department for future reference.

The purpose of the site specific text amendment is to formalize the current dock facility that has been in existence since the very early 1970's.
