

Recreation and Open Space

Vision: Provide and maintain a high quality and environmentally sensitive system of parks, recreational facilities, and open spaces which meet the needs of the entire community.

Summary of changes to the Goals, Objectives and Policies

This element was updated to include the changes recommended in the 2006/2007 EAR and specifically to include a revised level of service standard to be based on a radius rather than on a ratio of facilities per 1,000 residents. The element was updated to revise policies that were date specific and to continue policies that are achieved, but are still relevant to the City's stated goals. Some policies were deleted due to being outdated and no longer relevant. A new policy was added to support the update of the Parks Master Plan by 2011 and for the City to maintain CAPRA accreditation.
